President Trump does not speak languages other than English. He has prevented the release of his test results from the training period. Rumor has it that a test around his time at the Military Academy showed a low 73. But no credible test is public and therefore the public does not know what his IQ level is. On TV it has been shown that he *couldn't figure out 17 times 6 in his head*.

Utvandring från Malmö till Amerika

Köpenhamn - Danmark

Den vanligaste rutten var med mindre ångbåtar över Nordsjön till Hull i England, och vidare med tåg över till Liverpool på västkusten.

Överfarten till Amerika kunde vara mycket hård och de första drabbades av sjösjuka. Hygienen var dålig och epidemier bröt lätt ut. Det rådde brist på såväl färskvatten som mat. Många dog under överfarten eller följde med i djupen då fartygen gick under.

Interest in the subject of history is low! In Australia, student interest has fallen for 50 years in a row, according to the authorities. Members on Facebook and in history groups, where 99% don't like history slideshows. Even if they immediately get 400 slideshows to read if they click a link, only 1% do. But scientifically, the slide show is very effective in teaching history, much better than just texts. Over 400 slideshows are available here. But no more than 1% will act to learn more via these 12,000 pages to study.

Art Deco, sometimes referred to as Deco, is a style of visual arts, architecture and design that first appeared in France just before World War I. Art Deco influenced the design of buildings, furniture, jewelry, fashion, cars, movie theatres, trains, ocean liners, and everyday objects such as radios and vacuum cleaners. It took its name, short for Arts Décoratifs, from the Exposition internationale des arts décoratifs et industriels modernes (International Exhibition of Modern Decorative and Industrial Arts) held in Paris in 1925. It combined modern styles with fine craftsmanship and rich materials. During its heyday, Art Deco represented luxury, glamour, exuberance, and faith in social and technological progress.

Art Deco was a pastiche of many different styles, sometimes contradictory, united by a desire to be modern. From its outset, Art Deco was influenced by the bold geometric forms of Cubism; the bright colors of Fauvism and of the Ballets Russes; the updated craftsmanship of the furniture of the eras of Louis Philippe I and Louis XVI; and the exotic styles of China and Japan, India, Persia, ancient Egypt and Maya art. It featured rare and expensive materials, such as ebony and ivory, and exquisite craftsmanship. The Chrysler Building and other skyscrapers of New York built during the 1920s and 1930s are monuments of the Art Deco style.

In the 1930s, during the Great Depression, the Art Deco style became more subdued. New materials arrived, including chrome plating, stainless steel, and plastic. A sleeker form of the style, called Streamline Moderne, appeared in the 1930s; it featured curving forms and smooth, polished surfaces. Art Deco is one of the first truly international styles, but its dominance ended with the beginning of World War II and the rise of the strictly functional and unadorned styles of modern architecture and the International Style of architecture that followed.

Art Deco took its name, short for Arts Décoratifs, from the Exposition Internationale des Arts Décoratifs et Industriels Modernes held in Paris in 1925, though the diverse styles that characterize Art Deco had already appeared in Paris and Brussels before World War I.

The term arts décoratifs was first used in France in 1858; published in the Bulletin de la Société française de photographie.

In 1868, Le Figaro newspaper used the term objets d'art décoratifs with respect to objects for stage scenery created for the Théâtre de l'Opéra.

The best way to learn is by using slideshows and mix text and photos. Slideshows are at least used since 40 000 years ago. Image series and cave painting.

Varje dag var det tunga arbetet, den hårda disciplinen och den höga dödligheten, med en och annan ljusglimt som utflykter då och då till "gröna platser och marker" och lite köttstek till högtider som jul och påsk.

Lund den Danska staden
Ser ut som att Danmark återtagit Lund? Svenskt år 1658
Lund blev biskopssäte år 1060, när Danmark organiserades i ett tiotal stift. Från 1066 var den underställd ärkebiskopen i Hamburg-Bremen med gränser motsvarande dagens stift plus Bornholm och Halland, innan den 1103 blev ärkebiskopssäte för Norden. I Adam av Bremens historiska arbete från 1070-talet beskrivs Lund som Skånes huvudort och en nordisk parallell till den engelska staden London. Båda städerna uppfattades som kungliga huvudorter i sina respektive landsdelar.
